

## *Crack the Code – Clues*

The thieves who broke into the Royal Geographical Society left behind this code.  
(As a bonus clue, we've added the number of letters in each city's name.)

First letters from each place-name read.  
Spell out the town and come with speed.

| LATITUDE  | LONGITUDE  | LETTERS |
|-----------|------------|---------|
| 40° 58' N | 5° 39' W   | 9       |
| 21° 18' N | 157° 51' W | 8       |
| 36° 52' S | 174° 46' E | 8       |
| 1° 17' S  | 36° 49' E  | 7       |
| 6° 48' N  | 58° 10' W  | 10      |
| 21° 2' N  | 105° 51' E | 5       |
| 16° 51' N | 99° 55' W  | 8       |
| 41° 1' N  | 28° 58' E  | 8       |

**KEY:**

° represents degrees of latitude or longitude.

' represents minutes (out of 60) within a degree.
